

BUTLER COUNTY ENGINEER'S OFFICE

GREGORY J. WILKENS, P.E., P.S. BUTLER COUNTY ENGINEER

June 14, 2004

Mark Leaders, President
Leader Equipment
P.O. Box 177
Lebanon, OH 45036

Dear Mark:

Since the purchase of our Dura Patcher three years ago, I would like to take a moment to thank you for great service and follow up you have provided to the Butler County Engineers Office. As you know we have been using this equipment most every day. The crew using the Dura Patcher is very pleased with it and has been able to develop an effective preventative pavement maintenance program. Because of the equipment and the buy in from the employees who use the Dura Patcher, the county has been able to extend the life cycle for paving roads. This piece of equipment has become one of the most important pieces in our fleet and has well paid for itself in the short three years of service.

I would be happy to speak to any of your existing customers and potential customers if they have any questions. I can be reach at 513-785-4128. Again thanks for all your help.

Sincerely,

Scott L. Bressler
Operations Deputy
